HOME HELP Program Updates

The following HOME HELP form and guidance documents were created to simplify the HOME HELP commitment process, and provide a straightforward overview of the process and timeline for the HOME HELP Program:

- [HOME HELP Commitment Form](#) - This new HOME HELP Commitment Form replaces the HOME HELP Environmental Worksheet. Instead of completing the Environmental Worksheet, Loan Officers and Processors should complete the information on the HOME HELP Commitment Form and send the form to Minnesota Housing. Before sending the form, ensure the borrower signs and dates the Homebuyer Agreement, and that the URA Notification to Seller is sent. Minnesota Housing will then perform an Environmental Review of the property, and notify you when you are able to commit HOME HELP funds.
- [HOME HELP Process Chart for Originators and Processors](#) - The HOME HELP Process Chart is a new guidance document that gives a high-level overview of the steps necessary to originate and process HOME HELP loans.
- [HOME HELP Process Chart for Closers and Post-Closers](#) - The HOME HELP Process Chart for Closers and Post-Closers is a new guidance document that provides a high-level overview of the steps necessary to close, ship, and fund HOME HELP loans.
- [HOME HELP Forms Guide](#) - The updated HOME HELP Forms Guide includes updated information about how to complete new and updated HOME HELP forms.
